

AN IT SYSTEM IS ONLY AS GOOD AS ITS SECURITY.

SHARE YOUR PASSION.

Networking ideas and skills are crucial for redefining mobility, requiring a strong IT infrastructure and expertise in IT security. These experts must have a comprehensive approach to IT security and develop counter-measures using innovative solutions with passion, teamwork, and attention to detail.

IT Security Specialist (f/m/x)

What awaits you?

- Assess potential security risks and vulnerabilities, and implement mitigation strategies.
- Review and audit local IT providers' infrastructures to ensure security.
- Enforce compliance with security policies and collaborate with HQ teams on updates.
- Manage access controls and monitor user activities to prevent unauthorized access.
- Develop incident response and disaster recovery plans and lead responses to security incidents.
- Provide security awareness training for IT employees and ensure compliance with regulatory requirements.

What you should bring along?

- University Degree in IT, Science, Engineering or related.
- Knowledge of Security Protocols and Technologies.
- Good knowledge on Cybersecurity.
- Experience in management of IT Security (certification CISSP is desirable).

- Experience in Security Incident Response and Forensics.
- Familiarity with Cloud Security (certification CCSP and CCSK is desirable).
- High level of English.
- Ability to work in multicultural teams.
- Strong analytical, process orientation, communication, and organizational skills.

What you can look forward to?

- Challenging projects with which we are shaping the mobility of tomorrow.
- Wide range of personal and professional development opportunities.
- Attractive and performance-related remuneration.
- Annual special payments based on corporate and personal results.
- Flexible working hours and mobile work.
- Employee car rental programme.
- Access to healthcare services.
- Subsidised meals at the company cafeteria.
